Life Cycles Grassland

By Sean Callery

Kingfisher. Paperback. Book Condition: New. Paperback. 32 pages. Dimensions: 10.2in. x 8.8in. x 0.2in. The world's grasslands are rich habitats that support an incredible diversity of life from the smallest insects to the largest predators such as the lion and the puma. This book explores how ten of these creatures from diverse environments including the African savannah, the North American prairies, and the South American pampas are all interrelated in three grassland food chains. The combination of bright design, clear structure, and appealing wildlife make this a great introduction to life in grasslands around the world. This item ships from multiple locations.
